This document is the third iteration of our progression map for oracy. It is certainly not the final version. It is a work in progress, which we will continue to develop as we improve our delivery of oracy across the curriculum. I hope it is useful to people as a starting point for your own discussions. This map won't work in every school or every context; oracy is such a complex and context-dependent subject.

Where I hope it might be useful is in stimulating discussions about how the elements of oracy can be broken down into steps and a possible sequence for those steps. We are exploring the work by Voice 21 <https://voice21.org/>
